REACH Statement

Regulation (EG) Nr. 1907 / 2006

01.11.2021

The information contained in this document has been carefully researched and is, to the best of our knowledge, accurate. However, we assume no liability for any product failures or damages, immediate or consequential, resulting from the use of the information provided herein. Our products are not intended for use in systems in which failures of product could result in personal injury. All trademarks mentioned herein are property of their respective owners. All specifications are subject to change without notice.

Dear Ladies and Gentlemen,

With this letter we inform you that our products are conform to the REACH regulation (Regulation (EG) Nr. 1907/2006). We also comply with the "Regulation (EU) 2018/1881 of December 03, 2018 amending Annexes I, III, VI, VII, VIII, IX, X, XI and XII of Regulation (EC) No. 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) with a view to the nanoforming of substances."

The EU suppliers of products that are processed into our products in a relevant degree are also obliged to inform us unsolicited, if the products they supply, contain a SVHC substance above 0,1%. If we receive information from our suppliers and learn that our products exceed the 0,1 mass percentage threshold for a SVHC substance, we will inform you immediately.

We ask our EU suppliers to comply with their obligations to inform us voluntarily and without delay if a delivered product contains a substance of very high concern (SVHC) in a mass concentration above 0,1%. The relevant information is then contained on our delivery note.

With all non-EU suppliers we make separate arrangements, as they are not automatically subject to the REACH information requirements. Non-EU suppliers have to inform us in writing if the delivered product contains a substance of very high concern (SVHC) in a mass concentration above 0,1 %.

For more information on Art. 33 (1) and the list of SVHC substances, please refer to the website of the European Chemicals Agency (ECHA):
