RoHS Statement

RoHS-II Directive 2011/65/EU

RoHS-III 2015/863

22.10.2024

The information contained in this document has been carefully researched and is, to the best of our knowledge, accurate. However, we assume no liability for any product failures or damages, immediate or consequential, resulting from the use of the information provided herein. Our products are not intended for use in systems in which failures of product could result in personal injury. All trademarks mentioned herein are property of their respective owners. All specifications are subject to change without notice.

Dear customer,

RoHS-II directive did become effective by January 2nd, 2013, and RoHS-III directive by July 22nd, 2019. The main differences between RoHS, RoHS-II and RoHS-III directives are:

1) The scope of the directive was enlarged.

2) CE-compliance-declarations must include the RoHS-II directive.

    1) The substance-bans, declared by RoHS-II and RoHS-III, have been regarded by all FORTEC Integrated products since the directive has taken effect. Therefore, the enlarged scope of the RoHS-II and RoHS-III directive is irrelevant to FORTEC Integrated and no action must be taken.

    2) FORTEC Integrated has adapted the CE-compliance-declarations of all end products when the RoHS-II and RoHS-III directive came into effect and provides them for customer use.

FORTEC Integrated GmbH hereby confirms that, according to current knowledge, all products sold by us comply with the 2011/65/EU and 2015/863 directive.

These products meet the current requirements of the RoHS directive for all 10 designated materials:

- Lead (Pb) 0,1%
- Cadmium (Cd) 0,01%
- Polybrominated biphenyls (PBB) 0,1%
- Polybrominated diphenyl ethers (PBDE) 0,1%
- Hexavalent chromium 0,1%
- Mercury (Hg) 0,1%
- Butyl benzyl phthalate (BBP) 0,1%
- Bis(2-ethylhexyl) phthalate (DEHP) 0,1%
- Dibutyl phthalate (DBP) 0,1%
- Diisobutyl phthalate (DIBP) 0,1%

Do not hesitate to contact us in case of further questions.

Yours FORTEC Integrated Team
